Office and Warehouse is a full service supplier - from planning, to CAD drawings, to installation, to service.

Anti-tip feature ensures safety and smooth operation.

Choose from various shelving configurations:
a) cabinet doors b) pull out folder bins
c) literature/mail sorter d) pull out posting shelf

a) heavy duty track and carriage b) lite duty track

Floor mounted track and gliding carriages allow each movable shelving unit to move independently and with little effort by the user.

Bi / Tri / Quad Configurations

Lateral sliding shelving, also known as side to side shelving or bi and tri filing can be configured in 2, 3, or 4 deep rows of shelving to allow for maximum storage capacity as floor space allows.

Wide Range Of Uses

Lateral sliding shelving can be adapted to store letter and legal folders, books, binders, data or computer media, audio-video media, or practically anything that can be stored on shelving.

Heavy Duty and Lite Duty Applications

Two base track and carriage combinations are available to fit practically any load or budget consideration. Lite duty tracks can be selected for lite load conditions or budget applications whereas heavy duty tracks can support greater loads of individual shelving units.

**H.I.P.A.A.
compliant**

With the use of locking cabinet doors shown above.
